My Ideal College helps high schoolers and parents identify their best path after high school. We do this by helping identify what careers will light your teen up and then what is the path to get there - college, trades, certification. If college is the best path, we can help identify the right fit, right price college, assist in essay writing and the college application process. We take this overwhelming task and turn it into one that you go through with ease and confidence.

PTA Members will receive 10% off our services.
